

Procedure for Exhibitors to deliver Workshops/Talks at ASE Area Conferences

If your company wishes to deliver a workshop/talk at an ASE Area Conference please contact Ray Hancock, rayhancock@ase.org.uk, with the following information:

Title of Session

Presenter's name and contact details

Description of session – max 100 words, prefer 50 words. ASE retains editorial control over this copy.

Example

Using Handheld Datalogger with Full Graphical Display

Any Company Limited

This demonstration will show Any Company's latest Handheld Datalogger. Come and see how easy it is to use the device, either through its built-in Sensors or by plugging in any of the 10 additional Sensors that are already available covering: Biology, Chemistry, Earth Science & Physics. The unit is simply a mini computer, offering you full data capture, analysis, graphical display and print facility. For more details see www.anycompany.co.uk

For June/July conferences this copy is needed by 1 February

For October/November Conferences this copy is needed by 1 May

For March/April/May Conferences this copy is needed by 1 October

Ray Hancock will forward your information to all the ASE Field Officers so they are aware of what you are offering. The individual Field Officer will contact you to confirm if they wish to take up your offer. Our conference evaluations show teachers and technicians prefer Workshops/Talks that concentrate on how your product will improve pupils' learning **rather** than an emphasis on product selling.
