Scienceshirts 3 Peterborough Avenue, Oakham, Rutland LE15 6EB, telephone 01572 755371, supply T-shirts and sweatshirts with chemistry (some luminous), physics, biology, recycling and music designs. Ties: DNA, physics and four chemistry designs. Mousepads for chemistry and physics. DNA ladies scarves. Special for chemists: tea-towels, mugs, modelling books, pullout PT pens, unusual/historic periodic tables. Science Pioneers tea-towel. Scientific jewellery. Further details www.scienceshirts.co.uk E-mail: enquiries@scienceshirts.co.uk

Surplus Unilab and BES components Cell (1D) holder x 25, bulb holder x 28, changeover switch x 2, mounted buzzer x 12, BES mounted motor x 6, 4mm stackable plug leads 500mm x 30, various lengths plug-in crocodile leads x 30. Cost £300 new. Offers over £100 to ncbilderbeck@hotmail.com

Snowdonia Lovingly restored period home nestling between forest and river in beautiful, unspoilt valley. All mod and trad cons. Sleeps six for only £280 per week including school holidays. Details on 0208 343 9015.

LabAid (in Amersham, Bucks.) sends your donated apparatus to help science education overseas. We need your help nationally and locally. Please do not throw good apparatus into skips. Instead, please donate unwanted science equipment.

With your offers and for further details, please contact Alan Welch MBE by voice or fax on 01494 726861 or e-mail: labaidtrust@yahoo.co.uk

Ideas for Education We make and repair Van der Graaf generators and can supply belts, combs, etc. for many models old and new. Our diffusion Cloud Chambers have a built-in illuminant and are easily set up and adapted to accept 'old' sources. £32 + VAT + postage.

Details from Dennis Beard, Ideas for Education, Dromard House, Kesh, Co. Fermanagh BT93 1RW. Phone/fax: 028 6863 1209.

Rates for Small Ads

The rate to members for small advertisements is 25 pence per word. There is a minimum charge of £5.00 per insertion.

Advertisements should be sent, with the appropriate remittance, to the Executive Editor at ASE Headquarters.

Introductory Biology and Genetics

CD-ROM A teaching resource for aspects of GCSE. The topics include Cells and tissues, Cell division and specialisation, the Chemical constituents of cells, Respiration, Photosynthesis, Diffusion, Osmosis, the Interdependence of living things, DNA, Chromosomes and cell division, Chromosomes and fertilisation, Heredity. Each topic includes a *PowerPoint* presentation, self-assessment tests and, where appropriate, experimental work. The disks are offered at £5 to cover copyright fees and expenses. For full details contact d.mackean@ntlworld.com or visit <http://uk.geocities.com/donmackean>

Summer School in the Canary Islands

The European Association for Astronomy Education is holding its tenth Summer School for primary and secondary teachers from 3rd to 9th July 2006 in Santa Cruz de La Palma. Around 60 European teachers will attend general lectures, working groups, workshops and observational sessions in astronomy. The event is not aimed at experts and the presentations will be in English. The closing date for registration is 30th April and the approximate cost of registration and accommodation is 750 Euros. British Council support may be available. Contact: Alan_C_Pickwick@btinternet.com (Tel: 0161 973 6796).

School Science Reviews Free to collector. An almost complete set of journals from the 1930s through to the late 1990s. Coventry. Tel: 024 7641 7879.

ASE INSET Services Courses for Teachers

Promoting excellence in science teaching and learning

The programme for the summer term is now available, and contains many new events ranging through ICT, subject specifics, SEN, health and safety, self-evaluation for departments, continuity between key stages and dealing with the new specifications.

Enhance your personal and pedagogic skills through courses which have a clear focus on teaching and learning in the context of the science curriculum.

The courses are aimed at the needs of science teachers and will be run nationally, with many events being held in school or university laboratories.

Details are now available on the ASE website – www.ase.org.uk

Alternatively, we would be pleased to send information by post or e-mail. Telephone: 024 7669 0053 E-mail: admin@aseinsetservices.org

Cost per course

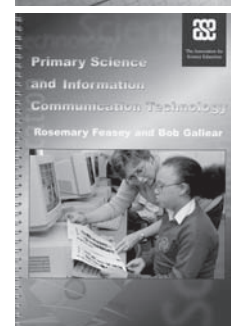

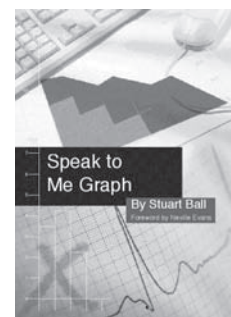

ASE members £110+VAT (£129.25)

Non ASE members £140+VAT (£164.50)

SPRING SALE

ASE is pleased to offer the following at specially reduced prices for spring 2006!

Signs, Symbols and Systematics: The ASE companion to 16–19 science

The authoritative nomenclature guide for science teachers, examiners and those involved in science education – the emphasis is on the 16–19 age range but much is applicable to the lower age ranges. It covers the signs, symbols and systematics for biology, chemistry, physics, earth science and electronics.

Spring offer price: £10.00 (Usual ASE members' price £15.00)
ISBN: 0 86357 312 6

Primary Science and ICT

This book and CD-ROM with certificates, clip art and scientific vocabulary provides ideas for successfully linking ICT to science to develop children's scientific understanding and skills through the successful application of ICT in science activities.

and

Speak to Me Graph

This book provides ten sets of data that give opportunities for teachers to devise activities that enable pupils to develop and extend their analysing and hypothesising skills. The data sets are based around investigations for upper key stage 2 and key stage 3 pupils in Life and Living Processes. This is an area where reliable data is difficult to collect: how often have you gone to measure dandelions only to find the grass has been mown? Each data set is paper based, but is also available as a spreadsheet file enabling teachers to use opportunities for ICT in the investigations. The spreadsheet also allows pupils to edit the data and explore it further. Contains a CD-ROM.

Spring offer price for the two: £20.00 inc. VAT
(Usual ASE members' price £29.00 for the two books)
Please use the code ICTAPR06 when ordering this set of two books.

2006

Newly available from ASE

Teaching, Learning and Assessing Science 5–12 (4th edition) by Wynne Harlen

Published by Sage Publications (www.sagepub.co.uk)
Special price for ASE members £14.00
(Usual price £18.99)

CIEC publications for special needs science

Inclusive Science: Activities for 14–16 year-olds

Published by CIEC. Visit www.ase.org.uk/booksales for more details.

Price: £9.00 for ASE members
(£10.00 for non-members)

The Science Special Needs Supplement: Investigations for 11–16 year-olds

Published by CIEC. Visit www.ase.org.uk/booksales for more details.

Price: £9.00 for ASE members
(£10.00 for non-members)
