

**ASE
ANNUAL
CONFERENCE**
#ASEConf2026

**University of
Nottingham**
8-10 January 2026

in partnership with **AQA**
Questions matter

Get ready for the UK's largest science education event, the Association for Science Education's Annual Conference! Over three days, you'll have access to 220+ sessions, including keynotes, workshops, and an exhibition of science education organisations.

2025 attendees said...

The quality of the sessions was exceptional. All the sessions I attended were excellent which left me feeling very positive.'

'I feel renewed with enthusiasm for the whole profession of teaching and particularly my own genuine love of science.'

'I came away with many practical ideas.'

Early bird tickets available until 2nd November. Get your early bird tickets now!

ASE Member: £115 one day early bird price

ASE Student Member (Trainees/ECTs): £25 per day

Non-Member: £314 one day

Programme highlights

Keynotes include: Current and future challenges for science participation, Space – challenges and opportunities in the century of change, Great minds on science education, The OECD Teaching Compass, Reflections on the 2025 Primary Science State of the Nations Report, British Sign Language STEM Glossary – a tool for introducing concepts in science, The Curriculum Review.

Hands on workshops: From wearable tech, to the joy of practical primary science and teaching outdoors, to biology/chemistry and physics practical ideas - there are plenty of hands on workshops to give you tips and tricks and confidence in taking practical work forwards.

Science exhibition: The conference includes a fantastic exhibition of science education organisations and resource suppliers. There are plenty of innovations to explore and interaction is definitely encouraged.

Networking sessions and socials: Come and meet fellow teachers, new and experienced in one of our networking lunches, teach meets, meet the committee or social sessions.
