

**ASSOCIATION FOR
SCIENCE EDUCATION**

ASE Continuing Professional Development Offer 2025

ASE offer high quality CPD and strong communities of dedicated professionals – driving excellence in science education. Here is a taste of our offer:

CPD for Technicians

Technicians CPD: Online

Our one-day online courses offer a range of topics for new and experienced technicians to support you in the varied aspects of your role.

- Getting started
- Supporting practical biology/chemistry/physics
- Supporting students

Technicians Leadership Programme: Online

Develop how you lead and manage your technical staff with the ASE Technicians Leadership Programme.

- Leading yourself and your team
- Working and training others
- Organising your technical service

Technicians Network: Online

Join us for regular networking opportunities. With engaging speakers and opportunities for sharing best practice – these events will enhance what you do and give you an opportunity to support others.

Discussions will be based around:

- Career pathways
- Job interviews
- Extra-curricular
- The technicians role

Trainees / ECTs Network

As you start your teaching career ASE welcome you to our supportive professional community. Share top tips, experiences and join guided discussions as this network supports you in your first years of teaching. Our next sessions will be looking at '**Supporting your Professional Journey**' and '**Mindset, Resilience and Positivity**'.

International Teachers & Trainees

Discussion Forum

Discuss how we as collaborative partners, organisations, colleagues and schools can support international teachers and trainees in the UK.

Each forum will have a focused topic and invited speakers. We will then open into discussion where everyone is welcome.

Booking is live for all three forums in the next academic year.

Network

We invite all teachers and trainees who are new to the UK education system to join this growing supportive and welcoming community. Network sessions will be covering:

- Revision, assessment and evaluation techniques
- Integrating technology into science education
- SEND
- Practical work
- Planning for the next academic year

Teacher Developers

ASE Teacher Developers' Group is specifically for all those who support and develop teachers throughout their professional journey.

Our network meetings are an opportunity to meet with other teacher developers to enhance your own expertise, knowledge and skills, through discussion and shared learning.

Upcoming topics are [Mentoring](#) and [Climate Education](#).

11-19 Secondary and FE

Interactive workshops

We are pleased to offer dynamic, interactive workshop series designed to provide subject-specific support to increase your confidence in the content, classroom strategies and practical skills.

We are working with Physics Partners to deliver 10 modules covering key aspects of **physics teaching** and Science and Plants for Schools (SAPs) will be delivering three webinars to help you make the most of **microscopy**.

Primary Teachers

Primary Insights Network: Online

Working with EEF Research Network schools, these sessions' themes have been taken from the **EEF Primary Science Report**. Join us to learn about how themes are being tackled in other settings. We will cover:

- Scientific Literacy
- Working Scientifically
- Relevant and real world contexts
- Assessment to support learning and responsive teaching

TeachMeets

Join one of our regular [Primary TeachMeets](#) led by our welcoming and supportive East Anglia Region.

Dates throughout the year. Welcome to anyone working in and supporting primary science.

CPD for Primary Teachers & 11-19 Secondary and FE

ASE Included

Included: Primary, Included: Secondary

Included: Consultancy

We are pleased to launch **Included: Secondary** and **Included Primary**. These six module programmes will develop your understanding of **inclusive practice** with evidence based theory, structured discussion and supported reflection points.

Our expert team integrate age and learning phase appropriate scenarios for you to apply your learning. Sign up now to take advantage of our limited introductory offer.

If you prefer a more bespoke approach, we offer **Included: Consultancy**, a 1:1 service where we support you in your current provision and planning for impactful change.

Local communities

Our Regional Committees work together to create unique CPD opportunities from TeachMeets to conferences, all across the UK.

Getting involved with an ASE committee will challenge your strategic thinking and put you at the heart of steering ASE's direction into the future. You can also check out who is involved in your regional committee here:

www.ase.org.uk/regional-committees

CPD is FREE or discounted for ASE Members.
Paid events range from £10-£100 member rates.
